NOTES ON SOME OF THE MORE IMPORTANT FIGURES PRESENTED IN THIS VOLUME.

The abstract of notes on the figures published in each part of the Statistical Register is again this year presented with the complete volume of the Statistics. Since the termination of the war the record of the Register has, it is satisfactory to reflect, in most respects been one of progress, and on this record, as on the readings of a barometer, the notes are based, emphasising not only the features inspiring confidence in the State's future, but also those, if any, which may give cause for reflection on less promising aspects.

I gratefully acknowledge the assistance of all Government Officers and others who have kindly supplied the figures for the respective branches or business concerns under their supervision.

S. BENNETT,
Government Statistician.

Government Statistician's Office,
Perth, Western Australia,
24th January, 1924.

PART I.—POPULATION AND VITAL STATISTICS, 1922.

The Population for the year under review shows an increase on the previous year of 7,859 persons, which is made up from excess of Births over Deaths, 4,964, and excess of Arrivals over Departures, 2,895.

The total arrivals during the year numbered 31,141, viz., 19,754 males and 11,387 females, whilst the departures were those of 17,057 males and 11,189 females, or a total of 28,246. The unrecorded departures were estimated at 935 and are included in the total.

The Births for the year 1922 numbered 8,131, viz., 4,163 males and 3,968 females: an increase, as compared with the previous year, of 324 Births. The Birth-rate for 1922 was 24.0, as against 23.4 for 1921.

Illegitimate Births numbered 335; Births in Public Institutions 1,011; Still-births, which are not included in the above figures, numbered 248. The number of Legitimations registered was 63.

The Deaths for the year 1922 numbered 3,167, showing a decrease, as compared with the previous year, of 313. The sex-distribution was 1,994 males and 1,173 females, as against the 1921 figures of 2,209 males and 1,271 females. The Death-rate for 1922 was 9.3, as against 10.4 in 1921.

The Infantile Death-rate, 55.7 per thousand Births, is the lowest ever experienced in this State, showing a decrease of 22.6 per thousand Births from the 1921 rate of 78.3.

The principal causes of Death are as follows:—Diseases of the Circulatory System, 381; Cancer, 302; Tuberculosis of Lungs, 256; Senility, 247; Pneumonia and Broncho-Pneumonia, 238; Diseases of Early Infancy, 195; Diarrhœa and Enteritis, 193; Cerebral Hæmorrhage, 126; Enteric Fever, 25; and Diphtheria, 21.

There was a considerable falling off in the number of Marriages, as from the previous year, the figures being 2,446 for 1922, and 2,656 for 1921. The Marriage-rate was 7.2, as against 8.0 for the previous year. Ministers celebrated 2,032 marriages, whilst District Registrars were responsible for 414.

Naturalisations numbered 228, the principal ones being those of Italians, 68; Jugo-Slavonians, 33; Germans, 23; Russians, 22; Greeks, 17; and Austro-Hungarians, 9.

In connection with the Vital Statistics of the metropolitan area, it must be noted that its population at the census of 4th April, 1921, numbered 75,088 males and 79,785 females. On 31st December, 1922, the figures were estimated to be 78,452 males and 83,321 females. On 31st December, 1923, the estimate was: males, 84,682; females, 87,177; total, 171,859.

PART II.—PUBLIC FINANCE, 1922-23.

Of the various categories of Government Finance, Public Debt, Sinking Fund, Revenue and Expenditure are tabulated in detail for ten consecutive financial years, ended 30th June, 1923. Loan Expenditure is shown *ab initio* to 30th June, 1916, and thence in separate financial years to 30th June, 1923. Under the heading "Government Property Sales Fund," Receipts and Expenditure are published for the financial year 1922-23, together with the totals at the beginning and at the end of that period.

The average nominal interest payable on the Public Debt on 30th June, 1923, was 4.34 per cent., and that borne by the Sinking Fund Securities, as on 31st March, 1923, was 3.79 per cent. Income Tax for the year 1921-22 is tabulated in two statements, both showing the numbers of taxpayers, their total incomes, and the amounts paid, but classified respectively according to incomes and occupations.

PART III.—ACCUMULATION, 1922-23.

The various particulars of Private Finance are divided into four Groups, *i.e.*, "Banking," "Life and General Insurance," "Friendly, Building and Co-operative and Provident Societies," and "Industrial and Trade Unions."

Cheque-paying Banks.

The Banks, in 1922, show an addition of one since the previous year, the Bank of Adelaide having commenced business in Perth on the 17th of October, 1922. The rates of Exchange on drafts and bills throughout the Commonwealth and New Zealand did not vary since 1921, but those on London and at 60 days' sight on London presented considerable variations. Discount on Bills and Interest on Overdrafts show higher minimums than in 1921, whilst Interest on Fixed Deposits for six, 12, and 24 months remained stationary, no interest being given on Deposits of three months during 1922. The Liabilities were £12,793,432 and the Assets £15,975,104. The former amount was an increase of £256,065, and the latter a decrease of £369,042 on the previous year.

Savings Banks.

The amount due to Depositors in the State Savings Bank on 30th June, 1923, was £5,866,286, and the accounts then remaining open numbered 147,059, the average being £39 17s. 10¼d. for each account. On the same date the School Penny Savings Bank had £67,947 due to Depositors, and 41,318 accounts remaining open, the average per account being £1 12s. 10½d. The Commonwealth Savings Bank in this State had £2,099,187 due to Depositors, and 61,837 accounts remaining open for an average of £33 18s. 11¼d. per account.

The State Savings Bank shows advances on the previous year of 3.7 per cent. in accounts remaining open and £2.3 per cent. in amount due to Depositors, whilst similar advances in the Commonwealth Savings Bank were 8.0 per cent. and £7.0 per cent.

The total assets of the State Savings Bank amounted to £6,009,108, which includes £5,934,232 due to Depositors; the amount invested was £5,450,403.

Life Assurance.

There were 14 Life Assurance Companies operating in this State during 1922, with total Assets valued at £388,340,318, of which £4,672,016 were in this State. The Revenue and Expenditure of the ordinary departments were £74,424,706 and £64,340,811, respectively, and of the Industrial Departments £2,754,260 and £1,428,324. The new ordinary business transacted in this State during the year was, for Assurances, 5,890 policies for £2,174,388, with single and annual premiums amounting to £78,066; for Endowments, 1,311 policies for £239,571, with single and annual premiums amounting to £11,845; and two annuities jointly for £234 per annum. The total business existing in Western Australia at the close of the financial year was, for Assurances, 39,998 policies for £12,189,624 (sum assured); Endowments, 4,308 policies for £603,163 (sum assured); and 31 annuities for £1,726 per annum. These figures reveal increases on the previous year of 2,320 Assurance policies for £1,049,450, 588 Endowment policies for £100,087, and two annuity policies for £179.

The new Industrial business transacted in this State during the year by four of the companies was for Assurances 13,459 policies for £654,270, with annual premiums amounting to £40,253; and for Endowments 653 policies for £50,248, with annual premiums amounting to £3,093; and the total business existing in Western Australia at the close of the financial year was, for Assurances, 70,659 policies for £2,495,309 (sum assured), and Endowments 2,614 policies for £99,011 (sum assured), the results being an advance on the previous year of 3,830 Assurance policies for £233,791, and a falling off of 36 Endowment policies with, however, an increase in the sum assured of £11,261.

General Insurance.

The total Revenue of companies operating in this State during 1922 was £604,873, and the Expenditure £590,921, of which £328,867 was for losses. The Revenue was higher by £41,657 than in the previous year, whilst the Expenditure was less by £2,147. The losses also show a decrease on the previous year of £13,052.

Friendly, Building, Co-operative, and Provident Societies.

On the 31st December, 1922, there were 15 Friendly Societies registered with 272 branches and 19,028 members, 2,931 of whom received sick pay during the year. The Revenue amounted to £103,942, and the Expenditure to £86,362. The Funds at the end of the year were £331,154, of which £322,208 was invested. There were also 24 Specially Authorised Societies, with Revenue amounting to £14,137, and Expenditure to £13,948. The Funds at the end of the year amounted to £15,505, of which £14,832 was invested. There were on the same date 15 Building Societies with 6,805 members. Loans were granted to the extent of £88,313, and repayments of £70,625 were made. The Assets amounted to £262,124, of which £248,670 was for mortgages. Twenty-one Co-operative and Provident Societies were also doing business with 7,106 members. The total sales amounted to £244,571, and the Expenditure to £238,070. The Assets were £82,321, of which £41,307 was invested on Mortgage.

Industrial and Trade Unions.

There were 178 registered Industrial and Trade Unions at the end of 1922, with 35,451 members. The income was £76,604, and the expenditure £73,182.

PART IV.—INTERCHANGE, 1922-23—TRADE AND TRANSPORT STATISTICS.

A careful perusal of the figures for 1921-22, here presented, in conjunction with those of previous years, inclines to the opinion that the excessive inflation of values during the year 1920-21 has largely spent itself, and the data are now probably a truer index of the requirements of the public.

The value of the imports shows a decrease of £2,801,000 on 1920-21, while the percentage from British Ports reveals an increase of 7 per cent. on the previous return.

The following figures show clearly, at a glance, the variations of the past three years' transactions:—

Imports.

According to Country of Shipment.	1919–20.	1920–21.	1921–22.
	£	£	£
Commonwealth States	7,409,269	7,619,703	7,729,638

Per head of mean population	37·806	44·781	35·782
Percentage British Trade	85 per cent.	82 per cent.	89 per cent.

Turning to the origin of the goods consumed, the last practically normal year at the beginning of the War is used as a basis for comparison; the figures are interesting:—

Country of Origin.	1914–15.	1921–22.
	£	£
Commonwealth States	3,876,350	6,880,037
United Kingdom	2,403,263	2,823,829

China	40,583	36,479
All other countries	334,465	157,466
Total	8,301,280	12,037,779

The Export Returns show an excess of £1,370,000 on those of the previous year, also a surplus of £1,591,000 over the importations, both being attributable to the specie movement. The figures are:—

Exports.

Destination.	1919–20.	1920–21.	1921–22.
	£	£	£
Commonwealth States	1,196,173	1,361,786	2,261,247

Value of Total Exports per head of mean population	49·117	36·994	40·511

Shipping Returns.—A very satisfactory position here reveals itself—the restoration of transport facilities to the pre-war basis. Further, the Tonnage figures probably are a truer barometer than the fluctuating sovereign, to gauge the volume of the country's trade by.

Since the trying days of 1917-18, there has been a steady continuous increase in the volume of tonnage. The returns for last year exceed those of the last pre-war year by some 200,000 tons. Figures are:—

Year.	Vessels.	Tons.
1913	879	3,032,521
1917–18	312	1,094,000
1918–19	637	2,122,439
1919–20	730	2,660,040
1920–21	795	2,843,470
1921–22	877	3,239,392

Customs and Excise Returns.—The figures still fluctuate; the 1920-21 total exceeded that of the previous year by over half a million, and was also only £166,000 short of double the collections of 1914-15. The figures are:—

Period.	Customs.	Excise.	Total.
	£	£	£
1914–15	764,521	117,012	881,533
1917–18	396,835	170,316	567,151
1918–19	400,663	274,650	675,313
1919–20	655,350	399,722	1,055,072
1920–21	1,009,243	587,827	1,597,070
1921–22	775,130	573,883	1,426,716*

* Including £77,703, "Other collections."

Of other Tables in this Part, two new ones (Nos. 8 and 44) are worthy of notice. The former, a decennial table, is exceedingly interesting, as it sets out, very clearly, the many articles of local production, which are so far developed as to become regular items of export; while Table No. 44 deals with the transactions of the State Timber Mills. The balance of the tables relate to the Fremantle Harbour Trust, the Bunbury Harbour Board, Shipping Office Returns, Wrecks and Casualties, Railways and Tramways (State and privately owned), and the Postal and Telegraph Statistics of this State.

Part V.—Land Settlement, Agriculture, Live Stock, and Meteorological Statistics, 1922-23.

Land Settlement, 1922.

The total area of land absolutely alienated on the 31st December, 1922, was 9,884,437 acres, and the area in process of alienation 16,554,191 acres, whilst the land held under Lease or License on the same date totalled 250,383,614 acres. Two hundred and sixty acres of Town and Suburban Lots were sold during 1922, and 1,588 Crown Grants were issued for 364,588 acres. Also 3,082 applications were approved for 1,900,160 acres of conditionally alienated land. The transactions under the Agricultural Lands Purchase Act show that 340,726 acres have been occupied out of the original amount available for selection of 342,783 acres.

Statistical returns were collected from 17,936 holders of land of one acre or more in extent who occupied a total of 18,478,790 acres of alienated lands and lands in process of alienation, and also 178,363,029 acres of Crown lands held under lease or license. These figures show increases on those of the previous year of 755 holders and 869,520 and 1,482,341 acres, respectively. The reported value of Buildings (for sheltering stock, produce, and machinery) and Implements and Machinery on holdings amounted to £5,511,305, which is more by £399,141 than reported in the previous year.

Agriculture, Season 1922-23.

The value of all Agricultural produce grown is estimated at £6,495,155, or £2 17s. 1d. per acre, which shows a slight drop on the value in the previous season of £430,607, or 15s. 9d. per acre. This reduction is mainly due to the lower market ruling for wheat and hay.

The area under crop was 2,274,998 acres, which was a record for the State and shows the substantial advance on the previous season of 373,318 acres. The total acreage of land cropped, cleared, etc., 8,305,232 acres, is also a record, and is greater by 600,990 acres than the previous season.

As regards the production of the principal crops, the averages per acre, for wheat 8.9 bushels, oats 10.6 bushels, rye 4.8 bushels, peas and beans 12.5 bushels, onions 6.2 tons and mangel wurzel 6.0 tons, are all lower than in the previous season, wheat showing the large decline of 1½bushels. Malting barley 11.8 bushels, other barley 11.5 bushels, maize 14.6 bushels and potatoes 4.2 tons, however, show higher averages, whilst hay and all other root crops presented the same averages for both seasons. The acreage under fruit trees, 19,405 acres, is an increase on the previous season of 393 acres, whilst the production of all the principal fruits showed much higher yields than in 1921-22; the apple crop produced the record yield of 758,998 bushels, whilst peaches and pears nearly doubled their previous season's yield. The acreage under vineyards, 4,858 acres, is greater by 907 acres than the area planted in the previous season, whilst the production of the crops of table, wine and drying grapes shows a higher yield of 2,090 tons. The production of dried grapes (sultanas, raisins and currants) was 15,998 cwts., and the production of wine 232,347 gallons; these also indicate increases of 2,837 cwts. and 80,048 gallons respectively.

The seed wheat used for the production of wheat and wheaten hay was 1,864,327 bushels, or 1 bushel per acre, and the quantity of manure used for all crops, natural and artificial, was 63,789 loads and 86,000 tons respectively. The former is an average per acre of 7.9 loads and the latter 0.8 cwts.

The production in the Dairying industry remained practically stationary, the quantity of butter made (2,766,533 lbs.) and milk produced (11,932,017 gallons) being only slightly in advance of the production during 1921, whilst the quantity of bacon and ham cured (1,677,498 lbs.) showed a slight falling off. The value of the production of poultry and eggs (£240,423) is greater by £31,994 than in the previous year, and the quantity of honey produced (350,869 lbs.) is also greater, viz., by 134,429 lbs.

The number employed in agricultural and pastoral labour during the season, 27,787 males and 8,754 females, is larger, as regards the former, by 2,139, and smaller, as regards the latter, by 198 than the previous year. The nationalities of those employed numbered for White races 32,443, Asiatics 563, and Aborigines 3,535.

The value of imports of products into this State which could be produced from the soil here, has, it is gratifying to note, been for the past two years on the decline. The amount, £2,837,541 in 1921-22, showed a slight decrease on the previous year of £5,437, whilst in 1922-23 the amount, £2,609,796, indicated a marked diminution, viz., £227,745.

Live Stock, Year 1922.

Live stock present growing numbers in all classes. Horses, 181,159, are more numerous by 825 head than in the previous year, and such increase is accounted for in the South-Western and North and North-Western portions of the State, the Central and Southern portions showing a falling off of 1,007 head. Cattle, 939,596, have advanced by 46,488 head, which upward movement of the figures is general throughout the State, the North and North-West portion showing up best with an increase of 32,724 head. Sheep, 6,664,135, are more than in 1921 by 157,958 head. This accession to the flocks is due to the increases in the North and North-Western and Central and Southern portions of the State, the South-West portion showing a retrogression of the figures by 239,734. Pigs, 67,561, record a gain of 4,560, which has occurred mainly in the South-Western portion of the State. Camels 6,473, mules 1,384, donkeys 8,688, and goats 32,337, are respectively more numerous than in 1921 by 617, 224, 1,574 and 1,985 head. The stock shown in breeding groups vary only very slightly from those of the previous year, but throughout the State, with the exception of a slight decline in ewes of breeding age in the South-Western portion, the female stock of breeding age record progressive figures. The numbers of lambs and calves dropped were greater than in the previous year, but foals dropped showed a slight falling off. The numbers of live stock slaughtered for consumption, cattle 79,812, sheep 899,974, and pigs 53,821, are larger than the previous year by 25,184, 43,735, and 4,760 respectively.

The wool clip, 38,592,931 lbs., is a decline on the previous year of 2,109,156 lbs., and the average weight per fleece is also less, viz., by 0.4 of a lb.

Meteorological Statistics, 1922.

A glance at the rainfall map for the year 1922 shows that the greater part of the State experienced a pronounced shortage. The most important exception was the East Kimberley division, where the averages were exceeded by amounts varying from a few points to 12.80 inches. Excesses, for the most part small, were also indicated along the Southern coast line, at a few stations in the Central and Southern portions of the wheat belt, at some of the far inland localities of the North-West, and over an irregularly shaped tract of the Eastern Goldfields.

The extreme registrations at telegraphic reporting stations were effected at Denmark, in the far South, where 52.06 inches fell, and at Fortescue, on the North-West coast, where the fall for the year was only 1.77 inches.

The deficiency in rainfall was most seriously felt in the North-West, through the Gascoyne and Murchison, and the Northern half of the agricultural country. The defects were greatest in the first and last-mentioned districts, reaching 13 inches at Whim Creek and 11.62 inches at Koolanooka, but the shortage in the Murchison country, although much smaller, was more acute on account of its following upon a series of bad seasons.

The year opened inauspiciously in the North. In West Kimberley few instances are on record of a drier January. East Kimberley fared better, and rain also fell in the inland North-West, but Turkey Creek was the only station to record an excess. Similar conditions prevailed until the middle of February, when an improvement began, which culminated on the 24th in falls of over 5 inches at Broome and La Grange. Rain subsequently extended to the inland North-West, but, apart from light showers, Port Hedland was the only coastal locality affected.

Unsettled weather, with rather patchy thunderstorms, affected many Southern areas towards the close of February, while the opening days of March saw a general sub-tropical rainfall. Another period of wet weather set in over Kimberley in the second

week, and slowly extended to the North-West, and later through the Murchison and Coolgardie Goldfields. The North-West coast and the Murchison country experienced a partial relief from the prolonged drought in this month, although in the great majority of cases the total registrations were below the average.

Early April was dry throughout, and the whole month very weak in the tropics. The latter half, however, was marked by frequent rains in sub-tropical areas, leading to excesses over the Gascoyne and Goldfields and large portions of the South-West quarter. Rain again visited the South-West at the middle and end of May, while South of the Tropic well distributed falls continued, especially after the 13th. The closing days saw a general rainfall from Broome southward, which was particularly beneficial in the North-West and the Northern portions of the Gascoyne and Murchison, where the monthly averages were exceeded. Some very heavy 24-hour falls, ranging up to nearly 5 inches, were registered on the South-West coast.

The Winter rains, which started well in May, received a severe check in June, when only one general fall occurred. As a result the agricultural country experienced a serious shortage, but portions of the Coolgardie Goldfields showed excesses. July was much better, the averages being exceeded throughout the wheat belt, but towards the end of the month the rain-bearing disturbances developed a tendency to expend the greater part of their force on the South-West coast. During the subsequent months this became much more pronounced, leading to a fairly general agricultural deficiency in August, and a serious shortage in September, especially over the Midland and North-Eastern portions. On the Coolgardie Goldfields these months (July-September) were marked by rather more frequent rainfalls than usual, but over the Murchison the only falls of importance occurred on the 25th August.

October and November were very dry over all sub-tropical areas, and the continued absence of rain from the wheat belt considerably affected the harvest. In December rather patchy rains were fairly frequent over the South-West coastal districts, the Central and Southern agricultural districts and the Coolgardie Goldfields, but the Murchison and Midland districts experienced another dry month.

In East Kimberley rains re-commenced as early as the end of September, and recurred at intervals, gradually extending to West Kimberley and later to the inland North-West. On the North-West coast, however, the year closed, as it opened, with a deficient rainfall.

Part VI.—Industrial Establishments, 1922 (Exclusive of Mines).

The decided advance in the secondary industries of this State noticed in the previous year was again in evidence, a considerable increase in the number of establishments sending in returns being shown in the year 1923; 300 "new" establishments, with 2,300 employees, were registered in the last two years. Making an allowance for improved methods of collection, and the fact of many of the "new" establishments being small ones, it may still be unhesitatingly stated that the long-looked for development in secondary industries has at last commenced.

The tendency to make locally commodities which used to be left to the manufacturers of Eastern States and the "Old Country" is now becoming a habit, and within the next few years probably W.A. will cease to be a dumping ground for surplus, and, in many cases, inferior stock from outside places, or will be, at all events, a participant in the profits of the manufacture of the commodities concerned, and incidentally provide fresher goods.

To name some instances of advance, the following *increases* in manufactures during the last two years are shown:—300,000 lbs. of leather, £20,000 of tiles, pottery, etc., 700,000 pts. of vinegar, 113,000 pairs of boots, seven millions of electric light and power units.

The *output* of Brickyards in the year was valued at £96,347; of woolscouring works £200,092; soap, whaleoil and candles combined, £136,634; lime, plaster and cement, £176,457; timber production (including firewood from sawmills, etc.), £1,547,239; fish and meat preserving, £272,989; biscuits and cakes, £200,438: flourmilling, £1,442,662; confectionery, £144,529; coach and motor body building, £171,607; furniture making, £229,771; bone mills and fertilising works (including guano), £450,183; asbestos with quarries and monumental works, £104,103.

In 1922 the *value added* to the raw material is shown (Table 8) to have been £5,789,786; the wages of the *workers who produced this value*, £3,713,108; and the margin for *profit, overhead expenses, etc.*, left to the manufacturer, £2,076,678, or 16.13 per cent. of the gross output.

There were 28 establishments in the State (with a total number of 5,889 employees), each having 101 or more employees, and 54 factories with between 51 and 100 employees.

As regards the number of aliens not naturalised working in the secondary industries, leaving out the forest sawmilling industry, in which a number of Italians and Greeks were engaged, the preponderance of men of the British race was overwhelming.

There are still a few Chinese employed in the cabinetmaking trade, but their proportion to the rest is only one out of twelve.

Tables relating to Pearlshell and General Fisheries are inserted, and the rates of wages established under Arbitration Awards, Agreements, etc., both for adults and apprentices, up to the 30th June, 1923, find a place at the end of the part.

PART VII.—MINERAL STATISTICS AND WATER CONSERVATION, 1922-23.

The information contained in this Part includes, in the case of Mineral Statistics, particulars for the calendar year 1922, and in the case of Water Conservation for the financial year 1922-23.

The total value of gold and minerals produced in W.A. up to the end of the year 1922 is estimated to have been £156,673,839. Of that amount, gold represents nearly 148 millions, or, if average values (Gold Producers' Association, 1920-22) be taken, 150 millions.

Dividends on gold mining shares paid during the same period amounted to £28,306,956.

During the year 1922 there was, however, a falling off in the gold produced (exported and minted) in the whole State; but the Pilbara, Yalgoo, Mt. Margaret, and North Coolgardie Districts showed increases on the preceding year's output.

In the number of men also, who were estimated to be directly employed in the gold-mining industry, there was a decline of 300 "*on the mines*," but a considerable increase in alluvial diggers.

The number of men employed in production of other minerals was 989.

The State batteries showed for the year a tonnage of 35,722 milled and 31,726 tailings and slimes.

As far as *other minerals* are concerned, increases in export figures were shown as follow:—

Tin	1921, £6,845 ;	1922, £10,930.
Pig Lead	1921, £48,863 ;	1922, £69,528.
Other Ores, etc. ...	1921, £273 ;	1922, £2,870.

The Perth branch of the Royal Mint produced £93,617,063, value of gold coin, to the 30th June, 1923.

Water Conservation is more than ever becoming a pressing question in this State. It is interesting to note that 1,169 millions of gallons were supplied by the Goldfields Water Supply Scheme alone in twelve months. The water supplied in the Metropolitan area by the Government Department operating therein was 2,714,791 thousands of gallons, 284 million gallons of which are included in the Goldfields Water Supply figures given above.

Most country towns of any importance are now being supplied by either local boards, or those controlled by the Public Works Department.

The largest consumers were—

Albany, 76,875 thousands of gallons; Collie, 40,677; Bunbury, 37,000; Katanning, 32,000; Meekatharra, 20,501; Carnarvon, 18,250; and Narrogin, 10,556.

Boring operations and the construction of tanks and wells in the agricultural districts were not prosecuted to any great extent during the year 1922-23. In the list of artesian or sub-artesian sources of water supply, however, amongst others, the bores at Hamelin Pool, with a daily flow of 7,905,000 gallons, appear for the first time.

In the year ended 30th June, 1923, there was an estimated consumption of 487,214,600 gallons by the Commonwealth and State Railway Departments in Western Australia.

PART VIII.—LAW, CRIME, ETC., 1922-3.

This Part of the Annual Statistical Register contains figures of the transactions of the Land Titles and Deeds Office up to the 30th June last, of Supreme Court business to 31st December, 1922, to the latter date also, figures relative to cases that come before Magistrates' and Higher Courts besides the general business of Local Courts, Wardens' Courts, Licensing Courts, and Coroners' Courts, and, finally, an Abstract of the latest gaol and prisoners returns.

In the main there was an increase in the transactions in the Land Titles and Deeds Office, as exhibited by the figures for the past financial year. Compared with the previous year, there was a larger number of applications to bring freehold land under the operations of the Transfer of Land Act, but a decreased number of such applications with regard to Crown Leaseholds; the former grew from 59 to 124, and the latter fell from

184 to 85. The declared value of such lands brought under the operation of the Act was greater in 1922-23 than in any year since 1913-14, amounting to £142,891. The value in 1921-22 was £120,881. During the years 1915-16 and 1916-17 the declared values amounted to but £25,184 and £25,012, respectively. Transfers registered rose from 10,073 to 10,754, and the consideration expressed from £4,880,836 to £6,224,862, the latter amount having been exceeded only once during the last decade, namely, in 1919-20, when 13,198 transfers, and a total consideration expressed of £8,264,152 were recorded. The mortgages registered went up from 7,874 to 9,592, and the moneys thereby secured from £3,873,048 to £4,777,729. In the numbers both of freehold and Crown leases increases are noticeable amounting to 42 and 53 respectively, 191 freehold and 2,772 Crown leases being recorded during 1922-23. The revenue collected advanced from £25,770 to £27,893 in the Titles Office, but receded from £165 to £140 in the Deeds Office. The net revenue was further benefited by a falling off in the Expenditure, the financial transactions resulting in a net gain of £12,600 or an increase of £2,448 on that of the previous year. Excepting 1919-20 (£17,102), the year 1922-23 provided the highest net revenue since 1913-14.

In the Supreme Court the transactions under "Common Law" show a smaller number of writs commencing actions than in 1921, but an addition to the amounts involved, the figures being—Numbers 625 and 470, and amounts £88,449 and £108,446 for the years 1921 and 1922, respectively. Judgments signed and entered also declined during the same period in number from 288 to 195, and in amount from £54,339 to £40,119. Probates granted numbered 645, being 78 less than in the previous year, whilst the duty collected amounted to £71,164, an advance of £4,894. The fees paid in this connection, £1,411, were less by £783 than in 1921. The sworn value of the estates for which probate was granted totalled £1,010,595, being the smallest amount during the last eight years. The total amount in 1921 was £2,004,656. Letters of Administration issued numbered 297, as against 337 in 1921. The sworn value of estates administered was £218,990, a decrease of £32,980 when compared with the 1921 total. The total sworn value of estates for which Probates and Letters of Administration were granted was £1,229,585, and the fees and duty collected thereon £76,895.

The activities in the Bankruptcy division showed little change as far as numbers were concerned, but in the Assets and Liabilities a shrinkage is noticeable. The Assets, £16,961, were £18,938 less, and the Liabilities, £36,510, were £7,434 less than in the previous year. Under the 1892 Bankruptcy Act, 21 voluntary and 15 compulsory petitions were filed, whilst under the 1898 amending Act 5 compositions, 6 schemes of arrangement, and 39 deeds of assignment were recorded. The business relating to bills of sale and liens showed a considerable increase; the registrations numbered 3,684 as against 2,971, and the amount involved was £4,480,882, as against £2,976,425 in the previous year. The satisfactions entered during the same period also expanded in number from 300 to 348, and the amount from £147,994 to £485,811. In Divorce, the usual amount of business was dealt with. The principal items were—144 petitions for dissolution of marriage and 15 for alimony, and 30 decrees for dissolution of marriage.

The number of local companies registered approximated closely to that of the previous year. The number and amount of capital for 1922 were 111 and £2,150,420 respectively. There were also 32 foreign companies registered. Intestate estates reported numbered 400 during 1922 and the amount collected thereon was £18,949. Compared with the previous year this shows an addition of 14 in number and a diminution of £12,913 in amount.

The Crime Returns for 1922, when compared with the previous year, disclose an augmentation of 319 in the number of distinct persons brought before the Courts, the total being 9,006 persons, which is the highest number since 1918, when 9,738 were recorded. For the 10,844 offences charged against these persons during 1922 (excluding aborigines), 9,788 convictions, 9,748 in the Lower and 40 in the Higher Courts, were recorded, of which (exclusive of drunkenness itself) 1,261 were attributable to Drink. Reviewing the proportion of numbers of offences to the classes of offence, a decline is noticeable in the number of offences against the person, property, good order and revenue, and an accession to those against the carrying out of laws and public welfare. Cases of drunkenness diminished by males 420, and females 10, with a similar variation in convictions. The corresponding figures for breaches of good order for the respective years 1921 and 1922 were—Cases 7,293 and 6,750; convictions 6,973 and 6,460. The total numbers of cases (excluding drunkenness) attributable to drink in the class "against good order" were correspondingly 993 and 996, whilst those due to drink in all classes were 1,256 and 1,261 respectively. The repeated conviction during the year of individual offenders is disclosed in table No. 11, which sets out that of the 7,657 distinct persons (excluding aborigines) convicted in the Lower Courts, 6,486 were convicted but once, 768 twice, 204 three times, 85 four times, 52 five times, and 27 six times, the remaining 35 comprising those receiving from seven to over 12 convictions. The total convictions (excluding neglected children and lunacy cases) in all Courts numbered 9,958, or 2.93 of the mean population, as against 2.90 in the previous year and 4.45 in 1916. The peremptory commitments to prison were 802 in the Lower and 31 in the

Higher Courts; whilst also 78 aborigines from the Lower and one from the Higher Courts were committed to prison. The percentage of all commitments to all convictions was 9.16. The total juveniles convicted numbered 533, males 494, and females 39. Amongst these were 184 convictions for stealing, including breaking and entering, 100 for breaches of Local Government by-laws and 128 offences against public welfare. The number of destitute and neglected children dealt with by the Children's Courts during the past year was 203, a decrease of 149 from that of the previous year. The numbers for the preceding three years were—1919, 46; 1920, 320; 1921, 352.

In the Local Court cases an increase in the number of plaints issued and amount recovered is noticeable; the number recorded during the year under review being 15,991, and the amount £71,457. The Wardens' Court figures were not greatly dissimilar from those of the previous year.

Liquor licenses granted during 1922 exceeded those of 1921 by 60, due almost entirely to the greater number of temporary licenses issued. There was a decrease of 10 in the number of publicans' general licenses.

The statistics of the gaols did not differ materially from those of the previous year.

PART IX.—HOSPITALS, CHARITABLE INSTITUTIONS, ETC., 1922-23.

In the Government Hospitals situated in the principal centres of the State, the number of patients admitted for treatment for the year ended 31st December, 1922, was 5,262, which, with those remaining in from the previous year, viz., 396, makes a grand total of 5,658 persons treated. Of this number 4,922 were discharged as either cured, relieved, or unrelieved, whilst 397 died, leaving 339 patients in the Hosiptals for further treatment.

The average daily number resident in these Hospitals was 329.9 with an average residence of 25.8 days per patient.

The attendance for out-door relief, so far as supplied, amounted to 2,280, whilst the total re-attendances numbered 8,561.

The figures for the Assisted Hospitals for the same period are as follows:—8,340 patients admitted, whilst 489 remained in from the previous year, making a grand total of 8,829 persons treated. Of this number 7,666 were discharged as either cured, relieved, or unrelieved, whilst the deaths numbered 648; 515 patients therefore remained for further treatment.

The attendance for outdoor relief, so far as shown, numbered 17,522 distinct patients, whilst the total re-attendances numbered 91,368.

The most noteworthy diseases treated in both Government and Assisted Hospitals, respectively, were: Typhoid Fever, 84 and 97, with deaths 11 and 7; Diphtheria, 174 and 273, deaths 4 and 8; Influenza, 157 and 105, deaths 1 and 5; Pulmonary Tuberculosis, 316 and 72, deaths 100 and 22; Rheumatism, 105 and 148, deaths 3 and 2; other general diseases, 194 and 379, deaths 10 and 25; Diseases of the Nervous System, 194 and 844, deaths 27 and 79; Diseases of the Circulatory System, 165 and 411, deaths 33 and 75; Bronchitis, 67 and 170, deaths 5 and 6; Pneumonia and Broncho-Pneumonia, 226 and 415, deaths 42 and 67; Diseases of the Digestive System, 574 and 1,533, deaths 37 and 116; Diseases of the Genito-Urinary System, 281 and 618, deaths 15 and 39; Puerperal Condition, 689 and 389, deaths 6 to 9; Purulent Infection and Septicæmia, 148 and 152, deaths 3 and *nil*; Cancer, 48 and 202, deaths 22 and 69. The number of patients in the Hospitals for Insane at the close of the year 1922 was 1,079: a decrease from the previous year of 18. The deaths numbered 53, as against 92 for 1921.

The figures relative to Inmates of the Homes for the Destitute at the end of the year was 1,215 as against 1,220 for 1921, showing a decrease of 5 persons.

The number of children in Orphanages and Industrial Schools was 1,055, as against 923 for the previous year.

Aborigines and Half-caste Aborigines in Native Institutions and Missions numbered 553, as against 524 in 1921.

The State-supported children on 30th June, 1923, numbered 709, as against 776 on the 30th June, 1922.

An Abstract of Annual Receipts and Expenditure of the various Charitable Institutions not under immediate control of the Government, concludes this Part of the Register.

PART X.—EDUCATION, SCIENCE AND ART, 1922-23.

The information contained in this Part includes *financial* figures relative to the Education Department, Public Library, Museum, and various Scientific Societies and Boards to the 30th June, 1923.

The Return of State Expenditure (from Consolidated Revenue only) shows that £620,428 was spent during 1922-23, £572,575 of which was outlay in connection with the Education Department.

The average attendance of State School scholars during the calendar year 1922 was 45,068, and of these at Private Schools, 10,394.

The cost per head, during the financial year 1922-23 was £10 9s. 4¾d., calculated on the average attendance during that period.

Special religious instruction was given to 30,590 scholars (average) and *general* religious teaching to all children except those whose parents (totalling 1,989) objected. Exemption from attendance at school was granted in only 122 cases, and there were prosecutions for non-attendance in 140 cases.

In the Government Secondary Schools, the number of pupils at the end of the year 1922 was 443, and there were also 2,831 individual students, attending evening continuation classes.

Manual training was given to 4,253, and household management training to 2,410 (average) pupils. The technical schools again had a busy year. In the Perth schools alone, there was an average of 2,075 students during the year 1922, and £1,974 was taken in fees. The total number of technical scholars was 3,075 and an additional 157 (average) at the School of Mines, Kalgoorlie.

The statistics relative to the University of W.A. show very little increase in annual expenditure during the decennial period since its inception, although the matriculated students attending lectures had risen from 118 to 322, and the number of certificates granted during the year 1922 was 1,233, including 558 for music examinations conducted by the combined Australian Universities, while in 1914 only 164 (70 music) were gained.

During 1922-23 the attendance of the Public Library was 120,207, and at the Museum and Art Gallery 68,930.

265 Agricultural Halls and Mechanics, etc., Institutes were in operation during the year with total receipts from all sources £31,148, and payments £31,562. The cost of their buildings was £150,349, and the estimated value of books and furniture £37,279.

PART XI.—LOCAL GOVERNMENT, 1922.

Municipalities.

The number of municipalities (21) was one less for the year ended 31st October, 1922, than on the same date in 1921. The total population of the 21 municipalities, as disclosed by the census of the 4th April, 1921, was 162,574.

The capital value of rateable property, including improvements, £29,492,571, at first glance, appears to have decreased considerably, but taking into account South Perth, which reverted to the status of a Road Board District during the year, an increase of £195,339 has to be recorded. The annual value had also, from the same point of view, increased by £75,844, whilst, owing to this increase, the amount payable in respect of rates was similarly greater by £14,147. The total revenue, £834,702, was in spite of the non-inclusion of South Perth for the past year, higher than the previous year by £52,047. The figures for 1922 include loans raised during the year, £84,369, as against £81,373 for 1921.

The amount of loans current on 31st October, 1922, £1,767,562, was, if South Perth be excluded from both figures, in excess of that of 1921 by £14,360, whilst the accrued sinking funds for the redemption of loans, £377,753, had in similar manner increased by £12,105.

The total length of roads and streets in existence on 31st October, 1922 (992 miles 6 chains) shows a decrease of 147 miles 75 chains—a decrease due to the reverting of South Perth to the status of a Road Board.

The number of Roads Boards increased from 119 to 121, new boards having been created at South Perth and Nungarin.

The total population, as disclosed by the Census of 4th April, 1921, was 164,958.

Some of the boards rate on the annual valuation, and some on the unimproved capital value, so that no really satisfactory comparison of the figures can be made with previous years.

The total revenue, £289,319, was £14,584 above that of 1921. The figures for 1922 include loans raised during the year £13,306, as against £16,720 for 1921. The expenditure, £307,151, had risen by £21,935.

The amount of loans current on 30th June, 1922 (including South Perth £28,984), £194,275, exceeded that of the previous year by £39,864, and the accrued sinking funds for the redemption of loans, £21,291, was higher also, the difference amounting to £5,205.

The total length of cleared, formed, and metalled or otherwise constructed roads (37,238 miles 74 chains) was greater than the year before by 733 miles 14 chains, and the following numbers:- Bridges 1,000, and culverts 9,539, both show increases.

Local Boards of Health.

There were 21 Municipal and 105 other Boards of Health in existence in 1921-22, 13 of the latter being inactive during the year. The combined revenue, £133,280, was £259 greater than for 1920-21, and the expenditure, £129,941, was less by £1,459 than for the previous year.

Fire Brigades.

The number of Fire Brigades, 40, was two less than for 1920-21, and the number of permanent firemen, 111, was four less, whilst the number of volunteer firemen on the roll, 527, had decreased by 46. The revenue, £34,833, was less by £5,797, and the expenditure, £34,746, was less by £765.

PART XII.—MISCELLANEOUS, 1922-23.

The first subject dealt with in this publication is that of Parliamentary Rolls and Elections, etc., giving the figures to 30th June, 1923, for the State Government, and for that of the Commonwealth as far as this State is concerned. Information relative to the first Local Option Poll in this State, held on 30th April, 1921, and details of the voting in each Licensing District, including that on the question of State Control of Licenses, are given. It will be noticed that the names on the State Rolls had decreased during the previous 12 months by 8,407 in the case of the Assembly, and by 1,387 in that of the Council Rolls. The data of the Commonwealth Rolls disclose an increase of 5,774 in the number of electors on the roll since 30th June, 1922, the total being 172,791 on 30th June, 1923. A summary of the Senate Elections and Referenda from 1903 to 1922 is included.

The Workers' Homes figures are given in a combined return for the ten years ended 30th June, 1923. The total cost of the approved applications during the period was £790,752, being an addition of £50,829 to the accumulated total of 1922.

Newspaper publications in Western Australia in 1922 numbered 95, which is one more than the previous year; 3 were dailies, 52 weeklies, and 28 monthlies.

The State Labour Bureau's return shows that during the year ended 30th June, 1923, a total of 8,242 men and 1,743 women applied for employment, and for 4,981 of the former engagements were found, whilst 2,008 engagements in the aggregate were provided for the latter, including 112 cooks, 123 generals, and 1,149 laundress-charwomen. These figures disclose that 211 more men and 94 more women obtained employment through the Bureau's agency during the year than during the previous 12 months. The engagements for men were principally those of 2,010 bushmen, 590 farm hands, 952 labourers, 368 lads for farms, 290 handymen and lads, and 114 sawmill hands. A table detailing the assistance rendered to applicants shows that, during its nine years' operations, the Bureau has advanced 17,430 fares, totalling in value £20,836, of which £16,662 has been refunded. In addition, assistance to 66 Goldfields lads and 90 men and women had been given during the year, the respective total amounts being £130 and £84, drawn from the funds of the scheme for placing Goldfields lads on farms and the Employers' Rail Trust Fund, respectively. The rates of wages for the various engagements secured at the Bureau conclude this Part of the Statistical Register.

STATISTICAL VIEW OF NINETY-FOUR YEARS' PROGRESS IN WESTERN AUSTRALIA, 1829 TO 1922-23.

This, the concluding portion of the Statistical Register for 1922-23, is an historical summary of Statistics which shows the progress of Western Australia from the year of first settlement.

The subjects with which this publication deals are mainly those presented more fully in the principal parts of the Register, viz., Population, Migration, Vital Statistics, Posts and Telegraphs, Consolidated Revenue and the Expenditure therefrom, Loan Expenditure, Public Debt, Lands, Agriculture and Live Stock, Gold and Coal production, Railways, the State Savings Bank, Shipping, Totals of Imports and Exports, and the principal Exports of the State, Wool, Raw Gold, Timber, Wheat, Flour, etc.

TOTAL PRODUCTION.

As no statement of the Total Production of the State is shown in any part of the Statistical Register, the following table is here appended:—

Estimated Value of Western Australian Production, 1914 to 1922.

* The mean population for the year is obtained as follows:—To the population at the end of the preceding year add four times the population on the 31st March of the year under review, twice the population on 30th June, four times the population on the 30th September, and the population on the 31st December, and divide the total by 12, which is the method now in use throughout the Commonwealth of Australia. Each quarterly mean is arrived at by adding together the number of the population at the beginning and at the end of the quarter and dividing the sum so obtained by two.

* Owing to the Commonwealth Government having discontinued the distinction between the State production and that of the other States of the Commonwealth, it is now impossible to show the oversea destination of locally produced exports in this table, as shown previous to the year 1911. In the case of the Interstate Transfers, however, the value of local produce exported to each State of the Commonwealth is shown in the summary of Table No. 6, page 104. See also Table No. 8, page 105.

** Merchandise of Australian Origin previously exported and now returned to this State.

† Includes Straits Settlements.

No. 5.—IMPORTS into the State of Western Australia during the Year ended 30th June, 1922.

Duties on British and Foreign Imports are collected under the provisions of the Commonwealth "Customs Tariff Act, 1921" (George V., No. 25).

NOTE A.—On all British and Foreign Imports 10 per cent. has been added to the fair market value of the goods at port of shipment.

NOTE B.—The "Quantity" columns are left blank in all cases where the quantities declared are packages of an irregular or unrecognised size, and consequently do not indicate the number, capacity, or weight of articles imported.

TRADE CLASSIFICATION.

Owing to the grouping of the Import and Export Items into Classes, in lieu of the alphabetical system followed prior to 1918-19 by the Customs Department, it has been decided to insert, for the convenience of the public, a résumé of the classes, together with a slightly condensed index of the items in alphabetical order.

No. 6.—EXPORTS of Merchandise from the State of Western Australia during the Year ended 30th June, 1922.

NOTE.—The "Quantity" columns are left blank in all cases where the quantities declared are packages of an irregular or unrecognised size, and consequently do not indicate the number, capacity, or weight of articles exported.

TRADE CLASSIFICATION.

Owing to the grouping of the Import and Export Items into classes, in lieu of the alphabetical system followed prior to 1918–19 by the Customs Department, it has been decided to insert, for the convenience of the public, a résumé of the classes, together with a slightly condensed Index of the items in alphabetical order.

* The cause of the great difference between the number of Vessels entered and cleared prior to 30th June, 1914, is principally due to the number which enter the State *via* South Africa, and on their outward voyage to Oversea Countries proceed *via* Suez Canal. † Six months ended 30th June. ‡ This and subsequent years terminate on 30th June.

No. 33.—Transactions of the Fremantle Harbour Trust and Bunbury Harbour Board during the undermentioned Periods.

NOTE.—The expenditure bases of the two Corporations are not the same. The Fremantle Harbour Trust employs all labour engaged in handling cargo on the wharves, whereas in the case of the Bunbury Harbour Board, general cargo is handled by the Railway Department for and on behalf of the Board and bulk cargo by the Stevedores, and no revenue (other than wharfage) is derived therefrom or expenditure thereon incurred. The sinking fund of both Corporations is invested at an approved rate of interest.

NOTE.—In addition to the above figures the following particulars were also obtained :—Acreage of Planted Forest Trees, 1,711 acres ; Lands farmed on the "Share System" : For Cultivation, 20,943 acres and dairying, 1,639 acres. * The reason why Returns relative to certain alienated and leased lands are not obtained under the Statistics Act is mainly to be found in the fact that it has proved impracticable for the Statistical Collectors to enforce the provisions of the Act in connection with lands which remain *entirely unimproved or unstocked*, and also in a lesser degree to the fact that small holdings under one acre in extent are exempted from supplying Returns. The Statistical returns are, however, collected from all lands over one acre in extent on which improvements have been effected and upon which Agricultural or Pastoral pursuits are carried on, and, therefore, comprise all lands the obtaining of Returns from which would serve any practical purpose.

No. 12.—Acreage and Production of Wheat and Oats in each Statistical District, Sub-District, and Area for the Season ended 28th February, 1923.

NOTES.—1. *The rectangular areas* adopted, which are shown on the map attached to this part of the *Statistical Register*, are comprised within the sheet lines of the Standard Plans of the Survey Department. Being permanently fixed they are units that can be readily sub-divided and re-grouped at any future time into new districts and sub-districts without impairing their use for comparative purposes. Except where the areas are broken by the sea coast or other causes, the area numbers here printed in black type represent areas of 8,437½ square miles each, whilst those printed in ordinary type represent areas of 937½ square miles each, and the sub-area numbers marked A, B, C, or D, as the case may be, represent areas of 234⅜ square miles each. 2. Areas in parentheses and marked with an asterisk (*) are those for which the returns, if any, have been included in those of an adjacent area where the homestead is situated. In most instances, however, they are unoccupied as regards the headings shown. Areas marked (†) are portions of areas only.

NOTE.—This table has been compiled with the special object of showing the values of the importations into Western Australia in the past decade of such products of the soil and of live stock as might in the future be produced within the State, but are at present introduced to supply the deficiency in local production. It serves, in some respects as a basis for calculations as to the market reasonably to be expected therein for home-grown products.

* On 31st December. *a* From the first settlement of the colony up to the year 1837 there were no Blue Books issued, and the figures relating to arrivals and departures, shipping, imports and exports were taken either from the reports of the Harbour Master at Fremantle or from the Perth newspapers of that period. From 1838 to 1859, inclusive, the Blue Books give only the excess of arrivals over departures, or *vice versa*. *b* No records obtainable. *c* At end of year. *d* Departmental figures. *e* On 30th June *f* Preliminary population and immigration figures. *g* Year ended 30th June. *h* Figures revised from 1911 onwards.
